\* [REDACTED] Comment.

25X1A elements of the 2nd Inf Div in Craiova were moved to the west. [REDACTED] The present report indicates that a new division was possibly activated from these elements which constitute about one third of the 2nd Inf Div. Although the information that a new division was activated may be true, it appears improbable that the build-up of that division should have been made in the border area facing Yugoslavia.
